Phone number: (+591)67736305
Email address: alfredofernandezcarlos@gmail.com

I am a frontend developer with over 1 year of experience and passion for writing clean code with react and typescript.

Last time when I built polymorphic apps with laravel it was easy to write clean code, despite that, if I have to choose, I definitely choose to react with typescript.

WORK EXPERIENCE

Web Developer (Freelancing)   20/2020 - present
In Bolivia Working as **self-employed**

HERE ARE A FEW TECHNOLOGIES I'VE BEEN WORKING WITH RECENTLY

React, Typescript, Redux, Tailwind, Node.js, Firebase, Strapi

MY LATEST PROJECTS

Social Network - facebolivia.herokuapp.com built with react node.js socket.io

- This project is open source, I took it from github and then added more functionalities. To later use it to my benefit.
  https://github.com/devat-youtuber/MERN-Stack-Build-a-social-media-app
- It was implemented to delete **assets** in cloudinary from node side
- Smoother chat with socket,
- Convert to responsive page, etc

Movie App - https://movieless.netlify.app/ Built with React, ThemovieDB, Firebase, Redux Toolkit

- This project was developed from scratch with the aim of watching YouTube movies with their ratings, being able to add to favorites, being able to create a movie list, all with data from ThemovieDB and free YouTube movies.
